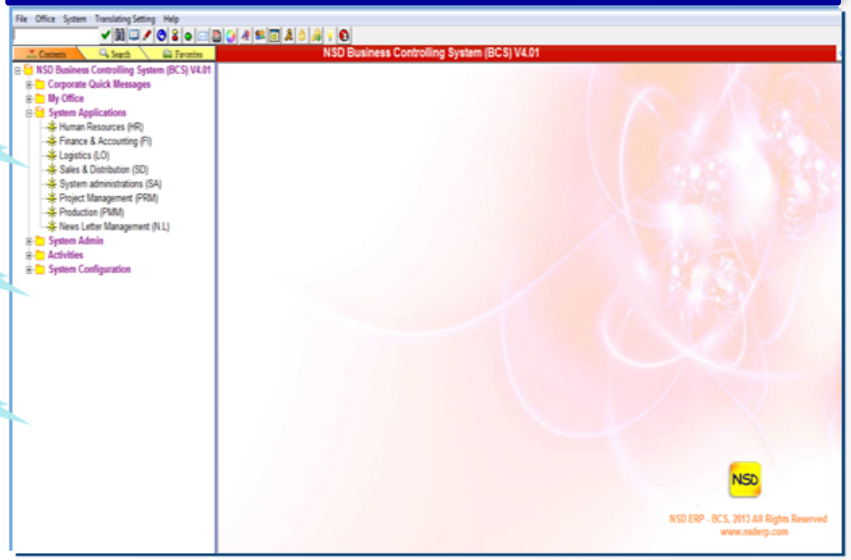
Three (3) sales interfaces are included in AMIRESTO

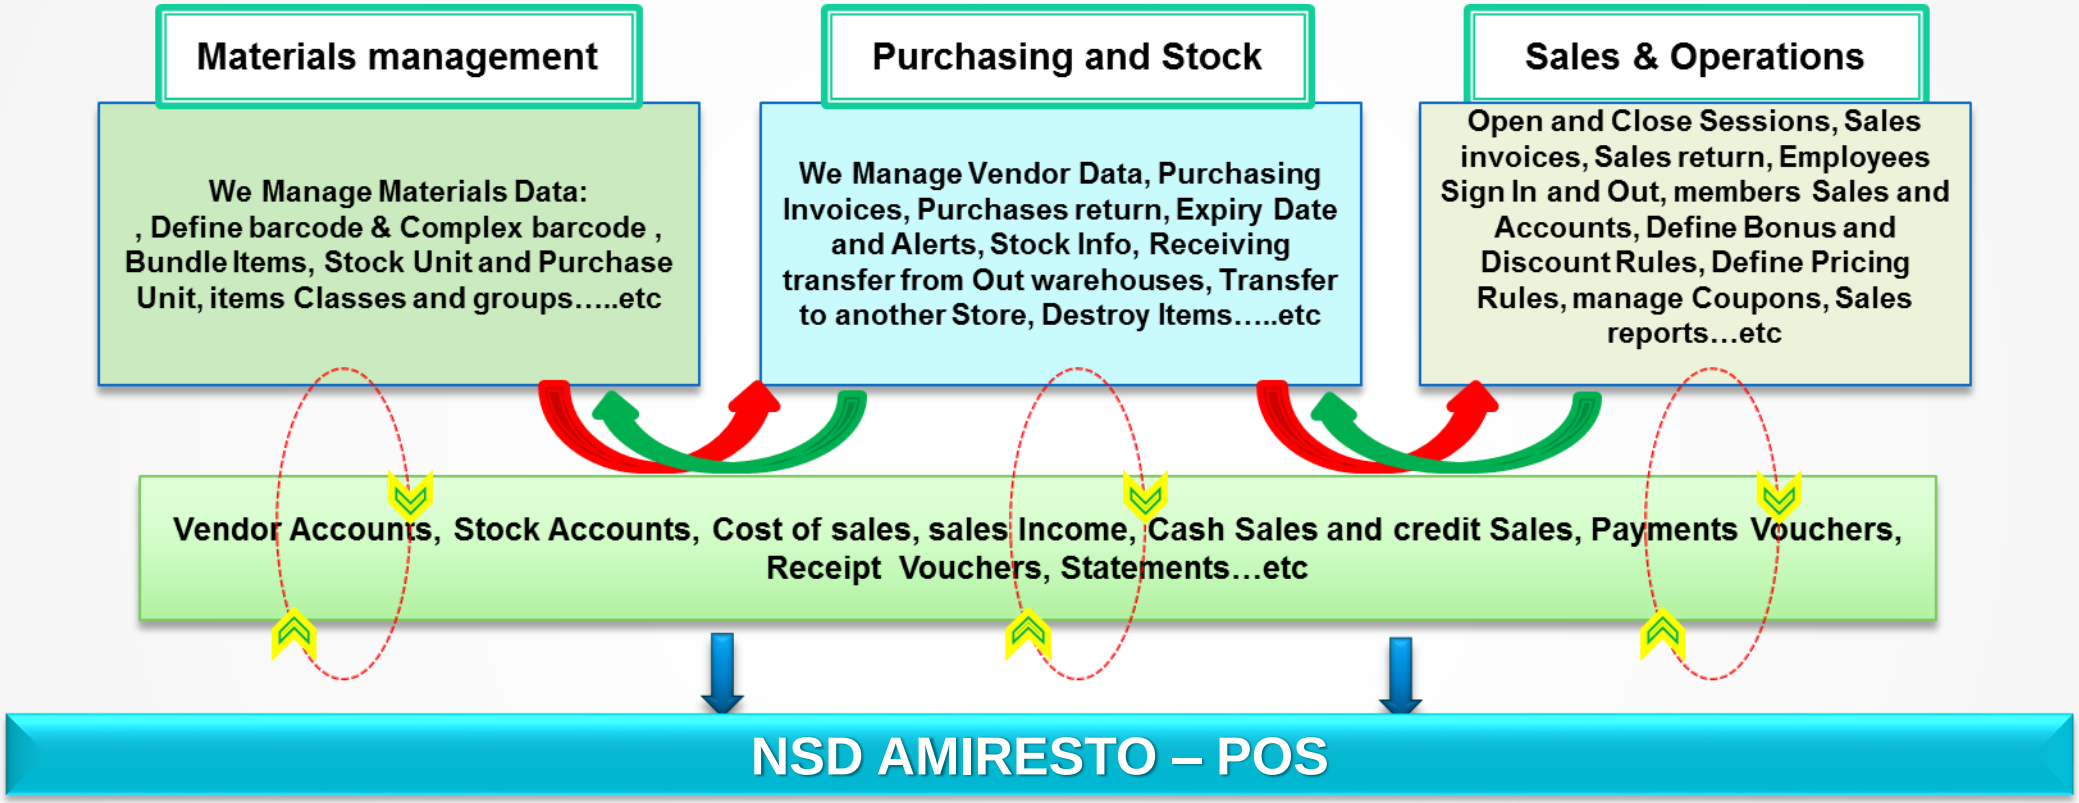
- Internal Interface
- Takeaway Interface
- Delivery Interface

NSD Synchronization

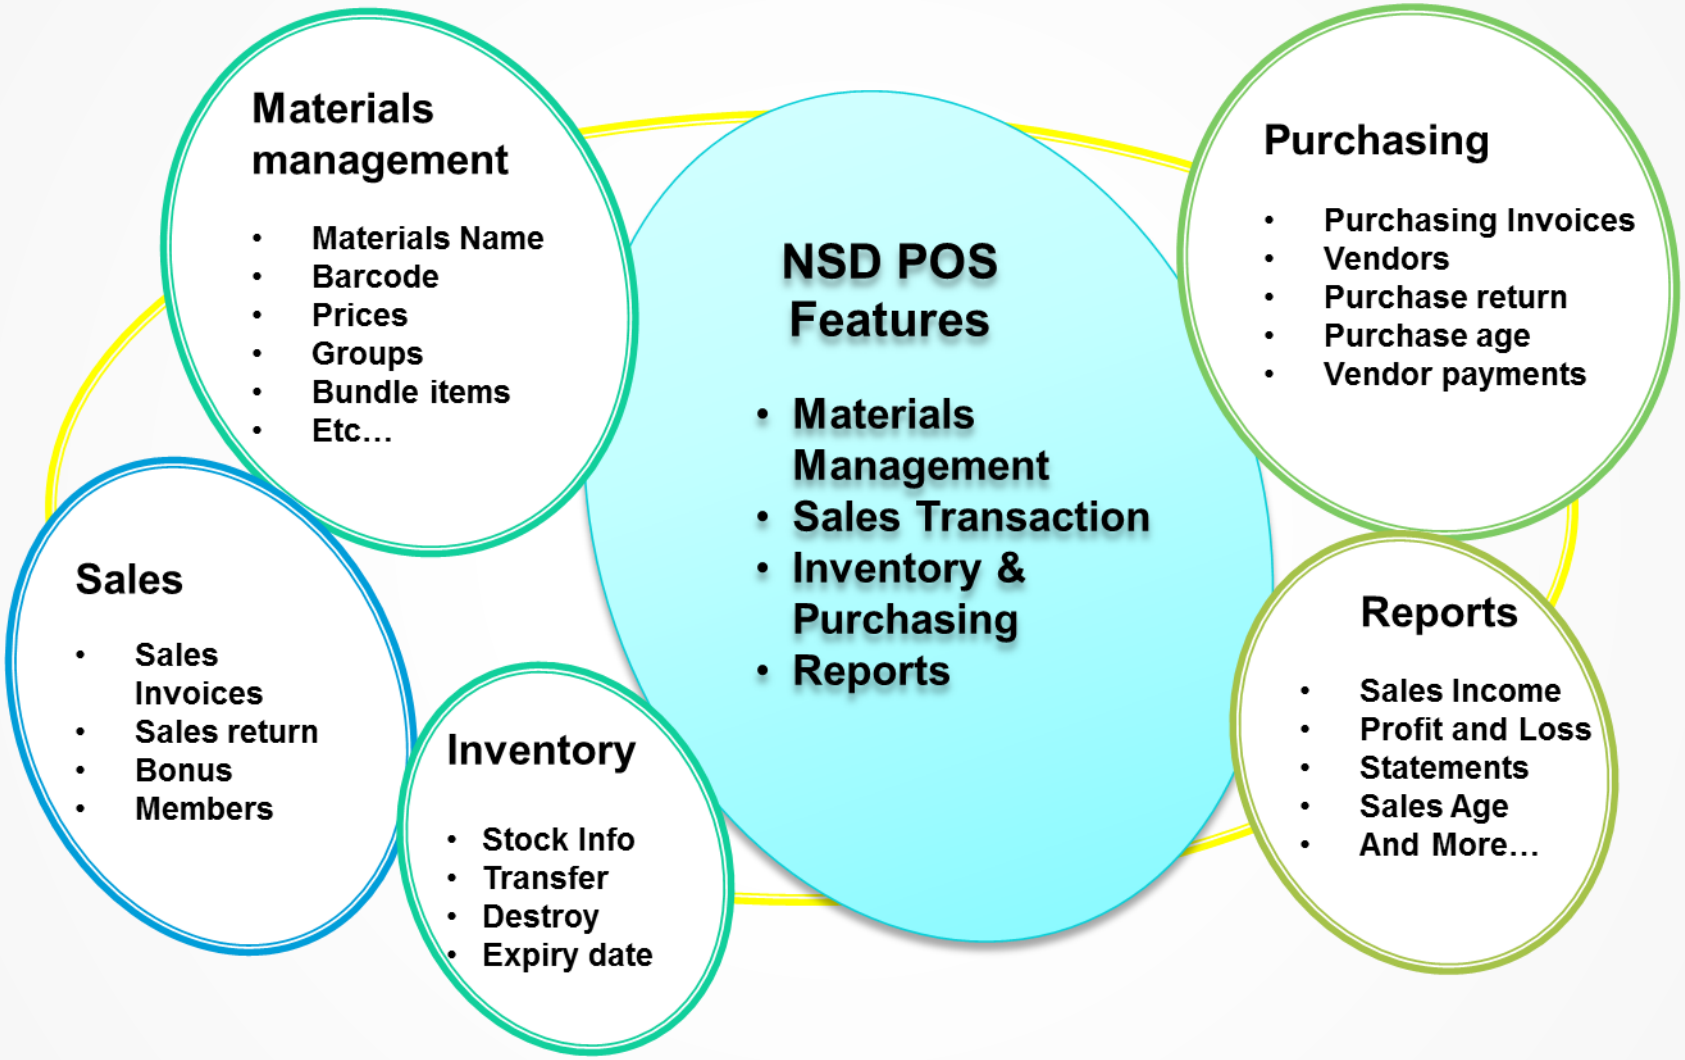
NSD AMIRESTO – BACK END



NSD AMIRESTO Integration



NSD AMIRESTO Integration



Hardware Integration

Barcode Scanners

Scales

Receipt printers

Mobile Application PDA

NSD AMIRESTO - Mobile application

The benefits of NSD-AMIRESTO Mobile application are quickly felt by the customer

because order Handling is faster and more accurately. Use of handheld POS devices at the table reduces the risk of errors being made on order capture and processing the order through to the kitchen.

The order is wirelessly passed to the kitchen without any manual re-entering. This makes order handling more efficient and less prone to error. Customers don't have to wait so long for their order to arrive and when it does arrive it is actually what they asked for
